Starving for Sharia in US, Mammal (according to SA scientists) Sarsour Lectures and Comforting LGBTQ, Feminists and All Else

May 31, 2017, a panel of Saudi scientists has concluded that women are actually mammals, granting them the same rights as other mammal species such as dromedaries, camels, and even goats (this is not a joke according to Worldnewsdailyreport:)http://worldnewsdailyreport.com/saudi-arabia-panel-of-scientists-admits-women-are-mammals-yet-not-human/. What a degrade after Donald J. Trump's visit! They obviously do not want to see women there as the equal individuals.

Starving for Sharia Law and mammals' communities on the US land, the Muslim mammal (according to scientists) Linda Sarsour now is lecturing, comforting and complimenting LGBTQ,feminists and everybody else. But if you think that the core of the Islamic law would change and would become better if it would be installed in the US, you are 500% wrong. A controversial messenger of Islam, mammalSarsour (not to offend of course, but it is impossible to offend women more than the panel of SA's scientists did) was selected by the City University of New York's Graduate School of Public Health & Health Policy to deliver the keynote speech at its first commencement ceremony. Sarsour said at this event, "We cannot allow the voices of hate and divisiveness to be louder than the voices of solidarity and love. ... ...We must stand together united in solidarity against the targeting, demonization and vilification of any group of people." It looks like it is time for Linda to go and voice her protest in Saudi Arabia.

It is difficult not to agree with Linda's words about support to groups and solidarity. However, we do not have to go far to find out how honest this woman (or mammal?) is. The facts speak for themselves. Who did ruin the World Trade Center in 2001? Who now spreads hate and threatens the innocent people all over the world on the daily basis if notISIL, ISIS and the suicide bombers? Now there is an insult of humanity with an idea of comparing women to mammals (after giving to Ivanka Trump $100 million:https://www.aol.com/article/news/2017/05/22/saudi-arabia-uae-pledge-100-million-ivanka-trump-backed-womens-fund/22103654/).There is the radical Islam, but if to take as an example even the regular Muslim culture, it is not women-friendly culture, it is not the minorities-friendly culture too. The real life's facts contradict to everything Sarsour says. It is normal that normal people tend to afraid or stay away from a particular religion and "culture" not because of some tales that never happened in a real life. The people have many reasons to keep a distance from people who are aggressive, oppressive, radical, obsessive.

One must be naive to think that if Islam would be installed in the US it would be a country of freedoms and liberties, democracy and happy life. It would be like the Saudi Arabia, where there are no women, but the mammals instead, wearing hijab.

Sorry, no Sharia Law in America for the God sake and for the women sake. Other way, we would have to admit seriously that the American university (CUNY) and its students degraded so much to invite and to be lectured by a mammal. People do not hate minorities or friendly and nice people and peaceful religions, that Sarsour is trying to suggest.
Jillian Birch, a spokeswoman at Amnesty International, also recently said another crazy thing, that she is optimistic about the future as women will no longer be considered as the "soulless objects" but as fully fledged mammals. How the US even got there?

(There is an article appeared saying that this was a hoax about the SA scientists conclusion but it doesn't change anything because the Islam world treats women like gooses, chickens, and cows and sure mammals with one difference - they use them also as a reproduction tool.)

Kathy Griffin: This Is Mental

What Kathy Griffin, Marina Abramovichand other people, chronically starving for blood, do is mental. And the mentally ill people are everywhere. Some of them live on a little monthly government support and rarely show up their faces in the crowd. The others are the high paid and well known individuals, who are trying to influence the poor masses with their craziness and idiocy, trying to make them the rules of life. A comedian and co-host at CNN New Year's special since 2007, Griffin was recently participating in a photo shoot which featured her holding up the President Donald J. Trump's bloody head. Poor lady, she probably had some stressful day. The mainstream media including CNN were recently very criticized by the majority of Americans for the disinformation they spread nationally and worldwide, and now it got even worse. This is obviously a nervous break down and a sign that it is time to quit lying.

We the people are born innocent. But the negative influences make some of us the miserable victims of darkness. And then, when negative and unhappy, whom to blame if not Trump... But do you remember how quiet, happy and nice life was before Obama entered the White House? So whom to blame and who started the spiritual war? It is not Trump. Trump is here to reunite the sides and to lead us back to the happy America. By the way 10 Commandments are not a bad idea to follow: do not lie, do not kill, do not steal... They will help in a renewal process. Then build your own thick wall, which would protect you from the fake news, fake ideas and negative influences.

The Americans carry a huge sin: several years ago, majority rejected Neopoprealism and its philosophy for happier life preferring to have their brains zentangled by those who stole the Neopoprealism art concept and presented it to the masses through a dull form of doodling and a distorted truth. It was a "fake news" spread through the ink pen drawing lessons testing if the people can be

turned into a bunch of dull minds that would be easy to navigate. Today everyone pays price. It is karma no one can escape until price would be paid.

Democrats Want Totalitarian Power

Democrats want to impeach Trump because he is a patriot and because he wants best for his country. They are trying to suggest the American people that Russians hacked election and Trump is illegitimate President. However, the only dumb person would believe it because anyone who can use his/her brain would understand that it is impossible to hack the election. The only it could be possible if the Russians would come to the US and personally voted instead of Americans, but it did not happen. Russians are still in Russia and Americans are still in the US. No matter who and when met Russians before election, it could not affect the results of the election because it was just normal regular communication between people that happens on the regular basis.

More democrats bite President Donald J. Trump, more we the freedom-loving people must think and analyze the real reasons of such controversial behavior. We need to dig deep to find out why they do it and how it would affect the all American people in general. And because it is already clear that the dark forces (multinational corporations represented by globalists politicians of the US's Democraticparty) want to install the totalitarian regime in the US and in the world where every person would be under 24/7 surveillance, we the people need to resist and support Trump more than ever.

The US has accommodated the most free-spirited and freedom-loving people and nothing should be changed.The US's Constitution was always the base for every successful story and every crazy achievement we only could think about. And now, a few people, who achieved their global goals and dreams using the US's Constitutional freedoms want to close the gate for the next generations, trying to install totalitarian regime and restrict them and lock them in a dark and stinking box where there would be no liberties, no freedoms, nor chance to prosper. Trump won election for a reason and we must continue help him to proceed with his mission of bringing America back on track and fighting against the dark forces that unfortunately do not give up as if they have future. However, the good always wins in a long run.

NYC: At Temperature 92F, Sno Kone is Very Relevant

When temperature gets 92F, just like today (May 18, 2017) in New York City, the "Sno Kones" are very relevant. And City Bank decided to sponsor the action of cooling down the Union Square's visitors, giving them complimentary Sno Kones. These sno kones were made right in front of people who were waiting in a small line to get this sweet, blue and fanciful piece of snow. There was some portable machine there that was creating snow from the ice cubes. The next stage was filling the cones with freshly made snow and adding blue sweet syrup on the top.

That was a fabulous idea. It would be really great to keep doing it as the summer is here, and we all would love to get some sweet piece of snow to cool down when temperature gets more than 90F. Instead of paying $200,000-$400,000 speaking fees per one speech to such lousy speakers-politicians like Obama and Clinton, who turned the US into jungle, it would be much better if the banks spent those money on giveaways. Love your customers, give them complimentary sweet snow cones or ice cream during summer, and hot latte or exotic tropical tea during winter. Just like it was in Union Square today.

May 1st, 2017 in New York City

In Downtown, NYC on May 1st, 2017, you could see the men and women who came together to protest many things.Looking at their signs, one easily can figure out what this all about. These people protest against deportations. Why deportations?America is big, there is enough space for everybody, including criminals. What a big deal if

some would explode the World Trade Center, there are the architects and builders who would build another one, even better than previous. Who cares that there are the crime increase made by immigrants and the drug smuggling? The drugs could be a solution to everyday life problems just like medical marijuana to the ill ones. Everything is not a big deal. Life is too good, it needs some spice from abroad. No one cares that there is not enough jobs in America even for Americans and that so many families members cannot support themselves and their children asking for support from the government, white and black. Some protesters do carry a sign "Black lives matter". By the way, only god knows what does this sign means, because any lives matter, every child knows this. Even lives of dogs, cats, birds, trees matter. Who would ever argue on a sober mind that the human life matter or not matter, black or white. This thing is unquestionable and why all this pathos around it? Another sign is "No! Drive out Trump/Pence". That is the funniest sign. Trump is the President of the US and objectively he is the one of the most successful people in the country, who was picked by the majority to restore America's greatness. And he is working hard 24/7 doing it. But this bunch of kick backers who might did not produce anything in their lives to be proud of, except their children, they are criticizing what Trump does. They call him Nazi because he wants to protect them and America from the criminal minds of the Middle East and Mexico. What is wrong with that? It is not Nazi thing protecting America, it is the common thing.

These protesters are inviting new people to protest, they want all America's streets and squares were filled with people screaming that Trump is not good. Interesting thing is: who then would work and produce if everybody would protest? By the way many of these protesters need no jobs, it is widely known that they are paid by the deep state and that they would stop protesting only when they won't be paid for it.

However, America is still a great country that needs no major changes, only restoring. Just look at the picture below. While some protesters are protesting the common sense for $15 per hour, this clever woman hits $50,000 jackpot (7-7-7) in Atlantic City's Casino, playing $5 slot machine. At this picture, she (on the left) is waiting for money to be delivered.

Woman Patriot's Message to Donald Trump to Handle Fascist Antifa in California

This clever woman from Venezuela who currently lives in California shed the light on who the Antifas are and what they want and "protect" during their riots, targeting women with pepper spray.

President Trump Signed Legislation Rolling Back Obama-era Regulations

March 27, 2017, President Donald Trump signed the measures that are rolling back the Obama-era's regulations under the Congressional Review Act. These and other future changes would eliminate the regulations issued during Obama's final months in office.Two of the regulations had to do with school performance and teacher preparation programs.

Why the US Becoming 3rd World Country: People Like Illegal Alien Congresswoman Norma Torres Made United States Their Home

Why does the US becoming the 3rd world country? Answer is simple: the illegal aliens like Congresswoman Norma Torres made the United States their home. Norma Judith Torres is a Guatemalan illegal alien and a politician, she is a member of the United States House of Representatives for California's 35th congressional district now. Previously, she was a member of the California State Senate representing the 32nd district. She is a Democrat.

The Demoncrats were caught many times on demonizing the good, hardworking Americans, who love their country. It seems that people like Torres have no respect for the US history and the Western world achievements we all benefit from daily. With people like her in power, the US would end up demolished because of minimization of importance of everything created by the intellectuals of the past and present. Trying to substitute the US's young and prosperous culture and achievements with the Guatemalan "cave life" culture or cultures of other 3rd world countries would be an absurd. The 3rd world countries' immigrants should try to adopt the US's culture to be part of prosperous society, even it could be very difficult for them to blend in. However, they demonize the Americans instead. But who would demonize (or undemonize?) the Demoncrats who prefer the 3rd world to the Western civilizations and progress and are spreading hate around the country?

A New Book that Globalists Do Not Want to See on Their Shelves:*"Milo Yiannopoulos and All This Mess"*

A recently published book*"Milo Yiannopoulos and All This Mess"*byNeoPopRealism Press, ISBN:9781544626604is obviously abook that the globalists do not want to see on their shelves. And not because it is about the current events and relationships between people with different political views, but because it analyzes not in their favor why and how free speech is important to human progress. It also explores the Milo Yiannopoulos' speeches during his "*Dangerous F-a-g-g-o-t*" tour and his interviews when he touches different hot topics. This book also focuses on the Milo Yiannopoulos' quite often successful tries to restore free speech in the US and his current senseless set back related to a controversial video-interview at "*Drunken Peasants*". This book suggests that the intellectual elite like Milo Yiannopoulos is a necessity to keep the US free and flourishing with liberties and progress. Even this account agreed with globalists that globalization is a good thing, but it suggests that in the current state, the planet Earth with its population is not ready for it (yet).

American City Dearborn (Michigan) Has Been Taken Over By Radical Muslims

https://www.youtube.com/watch?v=cSwcx3-XbAg

Dearborn is a city in the State of Michigan, located in Wayne County. It is part of the Detroit metropolitan area. Dearborn is the eighth largest city in the State of Michigan. As of the 2010 census, it had a population of 98,153.

President Donald Trump Speech at CPAC

StreamedFriday, February 24, 2017. President Donald Trump Speech at CPAC 2017.

The Conservative Political Action Conference (CPAC) is an annual political conference attended by conservative activists and elected officials from across the United States. CPAC is hosted by the American Conservative Union (ACU). More than 100 other organizations contribute in various ways. In 2011, ACU took CPAC on the road with its first Regional CPAC in Orlando, Florida. Since then ACU has hosted regional CPACs in Chicago, Denver, St. Louis, and San Diego. Political front runners take the stage at this convention.

The conference was founded in 1973 by the American Conservative Union and Young Americans for Freedom as a small gathering of dedicated conservatives. The 2010 CPAC featured co-sponsorship for the first time from the John Birch Society and GOProud. The Ronald Reagan Award was given to the Tea Party movement, which marked the first time it was ever given to a group instead of an individual. The 2011 CPAC was Donald Trump's first speaking appearance at CPAC. His appearance at CPAC was organized by GOProud, in conjunction with GOPround supporter Roger Stone, who was close with Trump. GOPround pushed for a write-in campaign for Donald Trump at CPAC's presidential straw poll. Christopher R. Barron, co-founder of GOProud who would later not only endorse Trump's 2016 presidential campaign, but also launch LGBT for Trump, said he "would love to see Mr. Trump run for president." For the 2012 CPAC conference, the ACU board voted to not invite GOProud or the John Birch Society to the 2012 conference. The 2011 CPAC speech Trump gave is credited for helping kick-start his political career within the Republican Party. The 2015 CPAC featured Jamila Bey who became the first atheist activist to address CPAC's annual meeting. The 2016 CPAC featured co-sponsorship for the first time from the Log Cabin Republicans
